## ABOUT US

If you're interested in Casting Calls, Acting Auditions or being contacted directly by Casting Agents, Producers, Directors and Production Companies then AADB is for you! AADB was created to link everyone in the entertainment industry from TV to film to theatre.

AADB allows all actors, models and presenters to create their own comprehensive profile and have it online for all its members to view. With over 2200 current members and 600000 hits a month, actors' profiles are being browsed at a rate of approximately 3000 pages a day. That basically means AADB is the most powerful way for you to be seen and found by producers, directors and casting agencies.

But it doesn't stop there: submit yourself to casting calls / acting auditions with a click of a button (your entire profile is sent to the casting director). Access over 30 auditions every month. Why do we have so many auditions? Simply because we customised the system precisely FOR casting agents and directors. We created a system that they desperately needed and we gave them all the features they wanted including: the ability to shortlist actors and email shortlists to other production staff, powerful search features, comprehensive profiles, lots of pictures and video. Casting directors love using AADB because it is professionally formatted, powerful and efficient.
